Summary

As a software engineer with 4 years of experience, I have a diverse
set of technical skills and a proven track record of building scalable
and maintainable web applications from start to finish. My technical
expertise includes proficiency in front-end technologies such as
HTML, CSS, and JavaScript, as well as experience with popular
frameworks such as React, and Vue. On the back end, I am skilled in
Go, Java, Node.js, and Python and I have hands-on experience with
MySQL, GraphQL, and PostgreSQL, as well as practical knowledge
of AWS services like SNS, Batch, SQS, and S3.
